INTEGRATION FRAMEWORK

Take PLM integrations for enterprise systems to a whole new level when it comes to configurability, maintenance and low cost of ownership.

EXPERIENCE PACKAGED

What is the Integration Framework?

A Supported Software

- Fully supported and upgradeable software.
- Integrates enterprise applications based on industry standards such as JMS, AMQP, NativeMQ and web services.
- Scalable to meet the largest implementations.

A Development Toolkit

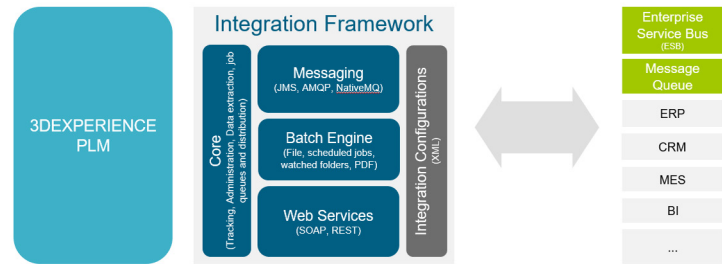

- Simple configuration capabilities for setting up new integration use cases.
- Provides advanced capabilities to further extend integrations without customisation.

A Framework

- Proven architecture and framework, perfect for configuring and developing integration use cases.
- Best practices built in from more than 30 ENOVIA integration projects.

Launchpads - Ready Made Starting Kits

- Enables rapid deployments.
- End to End support for integrating to ERP solutions such as SAP and MS Dynamics.

Transform the way you manage PLM integrations to enterprise systems by using the Integration Framework - a flexible, generic solution that simplifies implementation and the administration of your integrations, whilst reducing the total cost of ownership.

Integration Framework

Batch Engine

- Job scheduler for actions, programs, scripts etc.
- Asynchronous PDF generation.
- Folder monitoring.

Web Services

- A set of configurable Web Services for export and update of information and file content.
- Plug-in model using existing Web Services (REST or SOAP based).

Messaging

- Integrations based on messaging standards, i.e. JMS, AMQP and NativeMQ.
- Configurable message content with optional validation against corporate integration contracts (XML Schema, stylesheet).
- Delivery of messages to various standard destinations, for example message brokers, http, ftp servers and file systems.

ADDNODE GROUP

About TECHNIA

At TECHNIA, we pave the way for your innovation, creativity and profitability. We combine industry-leading Product Lifecycle Management (PLM) tools with specialist knowledge, so you can enjoy the journey from product concept to implementation.

Our experience makes it possible to keep things simple, personal and accessible so that together we transform your vision into value.

With over 30 years' experience, more than 6000 Customers worldwide and world-class knowledge in PLM & Intelligent Engineering, we work together as true partner and extension of your team to create an exceptional PLM experience.

Our 680 people strong team work from 32 locations around the world, across vertical industries, delivering a premium service with a global infrastructure and a local presence. We adopt the latest technology and agile methodologies so, even as technology changes, our relationships last a lifetime.
